Power Supply and Cellular Modem

The APU-12 Power Supply and Cellular Modem is a rugged self-contained system providing cellular connectivity, power portability and rapid deployment to a variety of portable/mobile electronic devices used in law enforcement surveillance operations.

The APU-12 connects laptop, PDA, video and audio devices through a long-range 4G LTE router/modem.

Provides battery-powered operation for up to 24 hours, or continuous power when connected to AC or 12V vehicle power.

Features

- Secure and reliable 4G LTE cellular connectivity
- Provides the Ethernet connection between the modem and camera
- Provides 12 VDC power to the camera and modem
- Rugged Military Spec design (MIL-STD 810)
- Housed in a Pelican case for all-weather missions
- 24 hours continuous operation with included integral battery supply
- Service available for AT&T or Verizon networks
- Portable for use with both the SP 949 Window and Tripod Mount, and the SP 955 Pole Cam systems
- Can be operated on the internal battery supply, or while charging on a 115 Volt AC or 12 Volt DC power source.
